

SPARKS SPEEDY SPEECH

Sparks of Speech DFW offers 30-minute sessions specifically for children with articulation deficits. It is designed to be more fast-paced, personalized, and includes use of evidence-based approaches for targeting speech sounds.

If your child has an IEP or school recommendation for articulation, he or she may benefit from a summer boost in our Sparks Speedy Speech program!

INTERESTED IN SCHEDULING YOUR CHILD?

We are now accepting new patients! Please complete the contact form or send us an email to get your child scheduled today!
